

Mini Crawlers

Used Mini Crawler Costa Mesa - Our different Mobile Crane Operation programs are intended for experienced operators who requires certification or re-certification, and for inexperienced individuals who are searching for their first job as an operator of a crane. Industry demand for crane operators who are certified is high all around the nation. Positions for crane operators are high due to their high pay. Crane operators are amongst the highest paid of any operator of heavy machinery. Our Crane Training Schools feature instruction and training for a wide variety of mobile cranes. Course subject consists of Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Rigging, Signaling and Load Charts. The program is most suitable for crane operators, riggers and their supervisors. The materials incorporated in the course will consist of a guidebook and lots of useful handouts. The safety manual that is illustrated consists of 100 to 250 pages, depending on the course, of useful and vital material. Course materials consist of load exercises and load charts for the crane with which the person training is working. Hands-On Safety Training would take up more than half of the course curriculum. The practical training part is the most helpful method to developing and improving personal skill levels. Just experienced journeyman crane instructors are chosen to teach the courses. Our instructors possess many years of business experience. Optional testing mechanisms are offered for all of our courses. Students would usually write tests both before and after training. A skills test is normally administered for programs that include H.O.S.T. People training will be graded and tested. Certification Training Programs: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Rigging / Signallerperson Training and Certification; Articulated Boom / Knuckleboom Cranes; In-The Seat Training and Certification & Testing. Industry standards of practice are changing as new industry requirements emerge. There are continual updates to legislation and regulations. Improvements in equipment and technology continue to be made. Industry data analysis and collection identify changing trends. Members maintain the advantage of managing their certifications and training programs. Mobile device alerts keep members ahead of workplace and personal safety news.
